

MEPNN Supplier Scouting Opportunity Synopsis

Section 1: General Information

Scouting Number	2025-045
Item to be Scouted	Golf Club Heads
Days to be scouted	30
Response Due By	03/22/2025
Description	For additional information and/or questions please contact: ryzgolf@gmail.com The RYZ Golf oversized club head is engineered to revolutionize the golfing experience for beginners and recreational players by offering maximum forgiveness and ease of use. This innovative product features a club head that is four times larger than a standard golf club head, making it ideal for striking a custom larger ball. The increased surface area significantly reduces the chances of missed shots (whiffs) and off-center strikes (shanks), providing a more enjoyable experience for users with varying skill levels Interested in discussing domestic manufacturing options for re-designed golf equipment. For additional information and/or questions please contact: ryzgolf@gmail.com
Notify Requester Immediately	Yes
State item to be used in	Colorado

Section 2: Technical Information

Type of supplier being sought	Manufacturer
Reason	New product startup
Describe the manufacturing processes (elaborate to provide as much detail as possible)	Injection Molding, using thermoplastics like: ABS, TPU, Nylon
Provide dimensions / size / tolerances / performance specifications for the item	The size of the iron club head is approximately four times larger than a standard or regulation golf iron having a blade length of approximately 6 inches to 8 inches and a toe height of 5 inches to 7 inches. The hosel spans a height of approximately 4.5 inches to 5.5 inches and is formed with extra material to provide greater durability as well as to ensure the iron can withstand repeated use and high-impact strikers without compromising the integrity of the iron or its performance. The size of the putter club head is approximately four times larger than a standard or regulation golf putter having a face length of approximately 6 inches to 7 inches, a heel length of approximately 1.5 to 2.5 inches, and a toe height of 1.5 inches to 2.5 inches. Looking for strength and durability. Be able to be withstanding of heat and impact. Specifics to be discussed once NDA, is in place. This opportunity involves the development of a new product.
List required materials needed to make the product, including materials of product components	Injection Molding, using thermoplastics like: ABS, TPU, Nylon
Are there applicable certification requirements?	No
Are there applicable regulations?	No

Are there any other standards, requirements, etc.?	No
NAICS 1	
NAICS 2	
Additional Technical Comments	The prototypes have been 3d printed but the CAD designs (in STL and STP file types) should be able to be used for injection molding purposes at scale, once NDA is in place

Section 4: Business Information

Estimated potential business volume	Estimated 2500 units to start with in total. This would include 1000 Irons right-handed, 250 left-handed. As well as 1000 Putters right-handed, and 250 left-handed.
Estimated target price / unit cost information (if unavailable explain)	Targeting the best quality as well as the best deal. Logistics and communication will also be considered.
When is it needed by?	05/10/2025
Describe packaging requirements	Best available. Delivered undamaged. Specifics discussed in negotiation.
Where will this item be shipped?	Denver

Additional Comments

Is there other information you would like to include?
