

# Offer of Assistance

Coordinated through MATTR/NIST MEP

OOA2020-008

<<Identification number>>

NIST Laboratory	Material Measurement Laboratory
-----------------	---------------------------------

Discipline	Polymer Chemistry, Organic Materials Synthesis, Soft Materials Science
------------	--

The researcher's current projects include:

Currently program manager for the Circular Economy in the Material Measurement Laboratory; Macromolecular Architectures project. Synthesis and measurement of model polyolefins, model gels and model graft polymers

The researcher uses the following instrumentation:

Size exclusion chromatography, nuclear magnetic resonance, Raman and Infrared spectroscopy; collaborate with others on rheology, neutron scattering, differential scanning calorimetry, etc.

The Researcher is proficient in software including:

Instrument specific software

If this Offer of Assistance matches your needs, please [submit a MATTR request](#).
